

3 LIGHT CREW RAYS

Please say the following Rays at any time you feel, in relation to your volunteer work or when you want extra Light Crew related support:

I call upon Divine Protection to flow through me and into the Earth

I call upon Divine Anchoring to flow through me and into the Earth

As a Light Crew Volunteer, you will naturally be anchoring Divine Energies into the Earth on many occasions. This is part of what your Soul has guided you to sign up for. The Anchoring Rays know exactly what you need.

I call upon Divine Acclimatisation to harmonise my Being.

The Acclimatisation Rays will flow to you, through you, around you and within you in whatever way is called for in the moment. Don't direct these Rays, they know what they are doing, simply let them do & be what is needed to assist your integration of energies.

These Rays are designed to support you in your volunteer work and its roll out into your daily life so you can also use them at times outside of the programme as you feel. They will work on all levels of your Being to support your assimilation of Cosmic energies moving within you, through you and around you. They will also assist your Physical Body and lower aspects to integrate all the vast vibrations you are activating and growing within yourself.
