

## **About the Golden Ray of Creation**

The Golden Ray of Creation is an aspect of the Golden Light of Creation. Its initial circumference is about the size of a circle you create when you place the tips of your thumb and third finger together. This may grow larger over time however it is always an Inner Ray. The Ray descends from the heavenly realms, passes in through your Crown, moves down through your centre and continues down into the centre of the Earth creating an inner channel of Golden Light linking your Being seamlessly, with Heaven and Earth. It also acts as an “inner elevator” for your energy to flow upwards towards God via the Inner Planes where you will be working from.

So, the Golden of Ray of Creation is the vehicle you will use to “ascend” to the Inner Planes to do your Cosmic Light Wave Activation Programme. It’s also the vehicle you use to descend back into your body when concluding your session. This happens naturally each time you complete a Light Wave mission and reverse/draw back all the energies opened out whilst doing the Light Wave Activation programme.

**Say…A Golden Ray of Creation descends through me and into the Earth**
